Re: Review of Partial Bond Release and File Closure Request, Daggett County, Clay Pit, S/009/0004, Daggett County, Utah

Dear Mr. Olsen:

On January 10, 2014, the Division of Oil, Gas and Mining received your request for a partial release of the reclamation surety and file closure for the Daggett County Clay Pit mine. According to your MR-SITE form submittal, "regrading will be done," and "topsoil [is] to be respread." Before the Division can process this request, you will need to:

- 1) At a minimum regrade the pits prior to the first bond release inspection.
- 2) Re-submit the Application for Site and/or Bond Release found on the Division's Web site at www.ogm.utah.gov/minerals.

Vegetation will need to be established before final release is given.

The Division will be happy to meet onsite once the site is regraded. After the Division receives your re-submitted Application for Site and/or Bond Release, we will inspect the site in a timely manner and respond to your request.

Please contact Leslie Heppler at 801-538-5257 if you have any questions or concerns regarding this letter or the release process.

Sincerely,

Paul B. Baker
Minerals Program Manager
